

You want the best for your students.

**Why accept anything less from the
technology that makes your school tick?**

 **RMTM Integris**

A school is a living thing.

With RM Integris at its heart, teachers can handle classroom records quickly and easily, spending more time with their students.

RM Integris is the leading cloud-based school management software and offers the capabilities you need.

With RM Education you have everything you need

- ✓ Access for students and parents from anywhere
- ✓ Faster and simpler classroom record keeping for teachers
- ✓ Unparalleled data analysis for school heads
- ✓ Powerful data management tools for administrators
- ✓ More time for student-facing activities
- ✓ Easy to deploy and simple to maintain
- ✓ Easily and securely share data with third-party providers as needed

But education is about more than ticking boxes

It's about building futures. Teachers, students and parents, admin, IT and school heads have one goal: **The best education possible.**

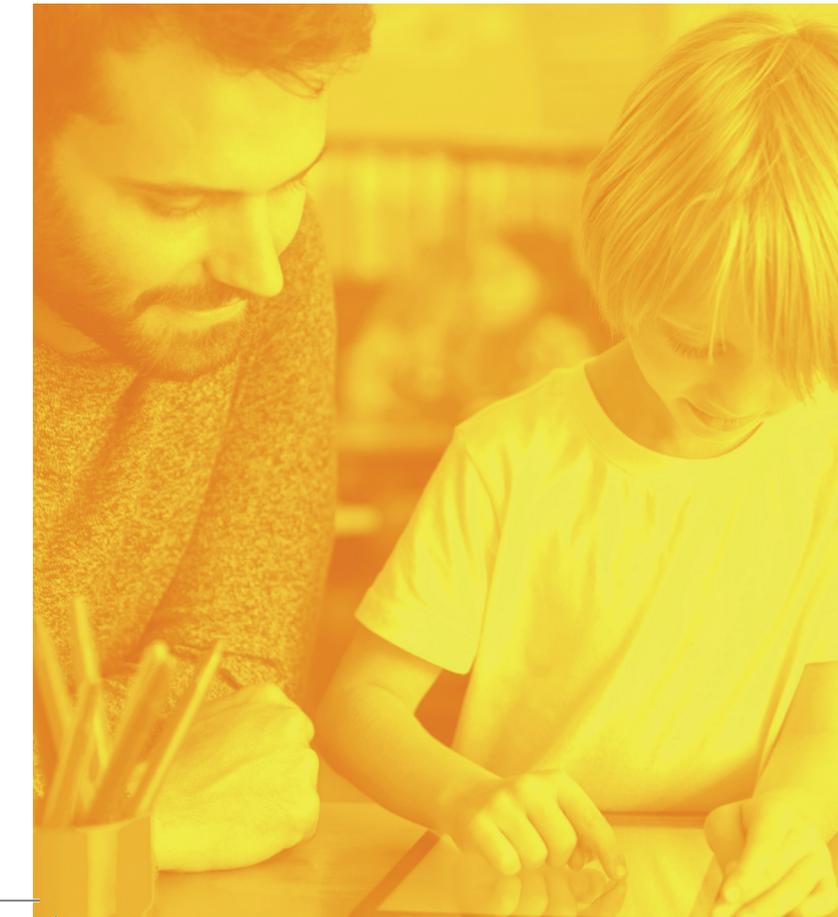

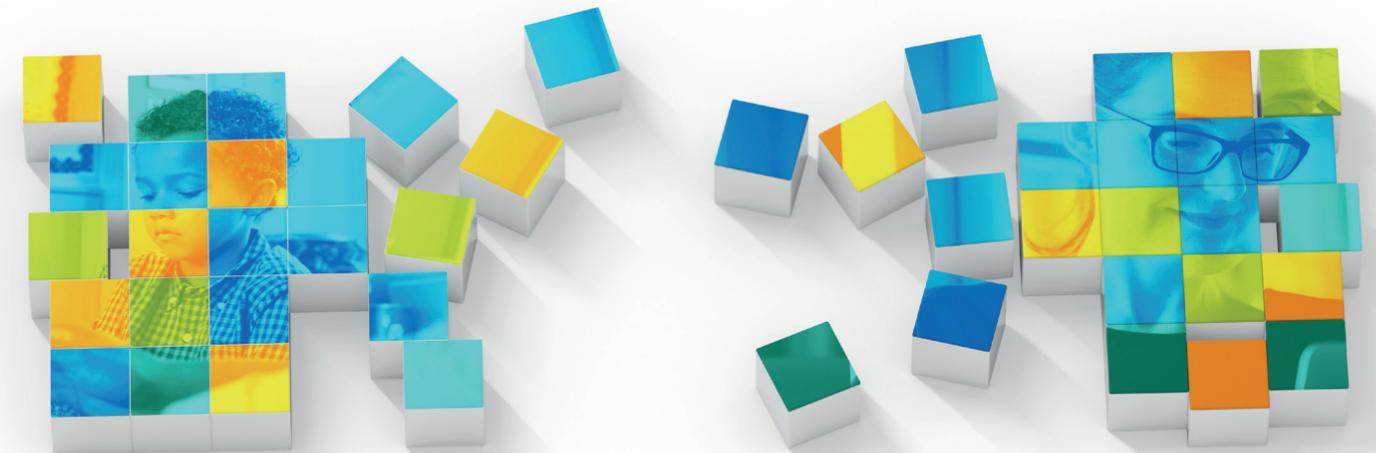

In a perfect world, nothing would get in the way of that. In the real world, budgets, schedules and staffing levels, among other things, make it more difficult. For 45 years, RM Education has been providing the tools that enable schools to deliver outstanding results for students.

With RM Integris we provide the best school management software that money can buy, for less than you'd expect. Learn what more than 2,400 schools already know – the power of RM Integris.

RM Integris is cloud-based.

That means students and parents have simple, secure access both in class and at home to the resources they need, while your admin team can keep everything running smoothly and compliantly with synchronised information.
